

HealthTeamWorks®

SOLUTIONS CENTER

Lead the way to innovation through transformation.

Learn

Tap into hundreds of best-in-class tools and resources for healthcare transformation.

Collaborate

Engage stakeholders. Convene and moderate your branded learning community.

Lead

Position your organization as a pacesetter and authoritative voice.

- Are you leading on the pathway to success in value-based healthcare?
- How are you advancing transformation—evolving payment and practices to attain high performance?
- Where do you go for trusted solutions to optimize operations and revenue through performance incentives and shared savings?

Ditch the detours. Plot a sure path to financial stability and success. Lead with solutions and guidance from the experts in healthcare transformation.

Whether you're focused on healthcare transformation in a region, across the country or around the world, the Solutions Center is your path to learn, collaborate and lead.

HealthTeamWorks Solutions Center 2018-2019 Features

HealthTeamWorks' Solutions Center is a collaborative community and pathway for your organization, members, clients or trading partners to lead through learning. Your \$10,000 Founding Sponsor investment entitles you to contribute to Solutions Center's thought leadership and mobilize your own network in the Library, School and Office.

Library

- On-demand guides, tools, reports, case studies, templates, videos, podcasts, samples, and white papers. Topics:
 - Advanced Primary Care
 - Business Operations
 - Data Analytics
 - Financial Performance
 - NCQA Recognition
 - Quality Improvement
 - Technology Optimization

Tap into hundreds of proven how-to tools, guides, and virtual learning resources.

Add your own resources to a single online platform where your stakeholders can collaborate and innovate. "Favorite" materials for easy access.

School

- Live virtual expert panels, interactive roundtables, learning labs, and industry updates.
- On-demand courses and learning paths. Topics such as:
 - Risk Stratifying High-Risk Patients
 - Engaging Patients in Self-Management Support
 - Addressing Resistance to Change

Define roundtable topics and add your own subject matter experts to national thought leadership panels.

Expand your organization's training capacity with online learning offered in multiple modalities to support varied learning styles. You define learning paths to train your designated workforce, using our resources plus components you add for customized learning.

Office

- Virtual collaborative networks that match your interests
- Document sharing
- Outcomes documentation
- Peer discussion forums

Collaborate with a focused, active learning community in healthcare finance and delivery.

Convene your community to work smarter in a networked learning environment where you can develop innovative tools, workflows, templates, interventions and transformation initiatives.
