

Primary Care First (PCF) Practice Support

Online Coaching & Facilitated Learning to Optimize Performance & Total Medicare Payments

The new PCF payment models represent a significant shift in Medicare payment for primary care practices. **HealthTeamWorks PCF Practice Support** will help those participating in the new payment model options that start in January 2021.

Through our unparalleled experience over more than 20 years, including CPC+ National Learning Network Faculty and Regional Practice Facilitators in two CPC+ states, we understand the challenges advanced primary care practices face in responding to alternative payment model requirements. Our team is equipped to recommend and support implementation of changes to drive performance improvement, secure income for outcomes, and improve patient experience and team vitality.

Online Practice Support from HealthTeamWorks' experts includes:

- ⇒ **HealthTeamWorks Assessment** to inform **Prioritized Recommendations**
- ⇒ **Guidance** to leverage CMS Data for **Performance & Payment Optimization**
- ⇒ **Small-Group Online Coaching meetings** focused on **your priorities**
- ⇒ **Monthly Group Virtual Learning Sessions** on topics essential to **all PCF participants**
- ⇒ **Access to HealthTeamWorks' Solutions Center Tools, Peer Forums, and Collaboration Networks**
- ⇒ **In-Person Collaborative Learning Meeting in Denver, CO**
- ⇒ **Individualized level of support** via picklist of **Additional Service Options**

PCF Practice Support

Our **Core PCF Practice Support Model** focuses on advanced topics and peer collaboration. Topic areas include the following and will be influenced by the needs of all participating practices and targeted to meet PCF performance thresholds.

- Care Pathways, co-management, and utilization guidelines to address overuse, misuse, and duplication of services
- Optimizing risk-stratified care management and patient activation
- Leveraging actionable data, analytics, and technology for performance optimization
- Social and wider determinants of health, clinical-community linkages
- Alternative access to care and information
- Integrated services (e.g. behavioral health, comprehensive medication management)
- Advanced quality and performance improvement and root cause analysis

Two flexible pricing options for one year of **Core PCF Practice Support**:

Option 1: Flat participation fee
\$7,000 per practice for one year

Option 2: HealthTeamWorks goes at risk with you

Lower upfront of \$5,000 per practice for one year.

Additional \$5,000 payable at the end of the year if we together meet specific thresholds, avoiding downside risk, and recognizing upside performance adjustments.

Note: Travel & accommodation for the Collaborative Learning Meeting in Denver not included in pricing.

Customize Your Experience

Tailor the program and pricing to the individual needs of your practice or network by including add-on services from the picklist.
