## SUBJECT MATTER EXPERTISE

- Behavioral Health Integration with Primary Care
- Community integrated care delivery model incorporating wider determinants of health
- Evidence-based practices to help persons with severe mental illness
- Practice Transformation
- Project Management
- Trauma Informed Care

## BIOGRAPHY

As the project lead at HealthTeamWorks, Angie is helping primary care practices to transform, adapt and sustain models to improve the services provided to their communities and populations.

Prior to working at HealthTeamWorks, Angie worked 5 years as a Program Manager in the Integrated Primary and Behavioral Health clinic overseeing a Primary and Behavioral Health Care Initiative (PBHCI) grant through SAMHSA. Angie also served on the Nebraska Heartland Crisis Intervention Team Board (CIT) for over ten years. The CIT program is a community partnership of law enforcement, mental health and addiction professionals, individuals who live with mental illness and/or addiction disorders, their families and other advocates. This program provides law enforcement-based crisis intervention training.

Angie began her professional career at Community Alliance in Omaha, NE, where she worked in a variety of capacities in residential and community services for 20 years. Community Alliance is a community-based agency that provides a full array of treatment and recovery-oriented services for individuals with serious mental illness.

## MY PASSION

“What motivates me is when providers from all points of care embrace the patient’s voice and feedback to improve practice culture and transformation. Increased patient engagement empowers patients to actively take charge of their health, which will inevitably improve their overall health and quality of life”.

## AWARDS & RECOGNITIONS

- National Crisis Intervention Team-Behavioral Healthcare Professional of the Year Award
- National Alliance of Mental Illness (NAMI) Nebraska Board Member
