

KATIE EBINGER, MSW, MPH

HealthTeamWorks
Facilitator, Advancement &
Health Care Transformation

OUTLOOK

“Adapting to the changing health care environment today and tomorrow requires a hundred small steps – not one easy fix. We must have the courage daily to support those steps, to achieve sustainable change, so that the places and spaces where people seek care and healing can exist.”

Colorado School of Public Health

Master of Social Work
University of Denver

Bachelor of Arts, Psychology
University of Wisconsin-Madison

SUBJECT MATTER EXPERTISE

- Behavioral Health
- Compassion Resilience & Burnout
- Organizational & Staff Development
- Health Systems, Management & Policy
- Community & Group Facilitation
- Advancement of Health Equity

BIOGRAPHY

As both a public health and social work professional, Katie comes to HealthTeamWorks with a breadth of knowledge surrounding health systems, management, and policy as well as a passion for supporting organizations and providers in the creation of environments and communities where everyone can thrive. In her role as a social worker, Katie has experience engaging with both patients and providers, serving individuals with complex chronic physical and behavioral illnesses as well as supporting the wellbeing of other health and human services providers. She has also worked with several non-profit organizations in Colorado, engaging in program evaluation, strategic planning, lean systems improvement, organizational advancement, and cross-sector collaboration.

Katie is dedicated to connecting and creating systems of care that support the quadruple aim as well as the advancement of health equity. In her current role, Katie supports HealthTeamWorks’ progress to their mission and vision, helping the organization change and adapt to the dynamic health care environment as well as the needs of the populations and communities it serves.

MY PASSION

“I believe that the only way we can achieve true health and health equity is by looking at the whole person as well the community and larger systems within which they live and work. I am driven by my desire to break down structural and systemic barriers and my passion to ensure everyone – from the patient to the provider – has the opportunity to reach their own idea of health and wellbeing.”
